

Kerem Arıç (Partner) – Yazıcı Attorney Partnership

Kerem Arıç is a dual-qualified (Switzerland and Turkey) lawyer focusing on Construction and Engineering, Oil and Gas, Mining and Power Generation.

Kerem has been involved as lead counsel in major EPC (including FIDIC and FIDIC based agreements) and O&M agreements in Turkey and abroad with a specific focus on projects relating to infrastructure, energy and industrial production facilities. Kerem has extensive experience in Oil and Gas in every stage of upstream activities such as production sharing, regulatory work, joint operating, farm-in, drilling and field services. Kerem is also proficient in Oil and Gas related construction, production and processing facilities, including natural gas storage and pipeline projects. He likewise developed expertise in mining projects where his practice encompasses agreements with mining contractors, royalty and offtake agreements. Kerem is also active in the power generation industry, focused on both nuclear and thermal power plants as well as renewables and geothermal projects. Kerem further represents clients in arbitration proceedings before the ICC, LCIA and ISTAC, again with a specific focus on disputes in the natural resources, power generation and related construction businesses.
