

Türk Müşavir Mühendisler ve Mimarlar Birliđi  
Association of Turkish Consulting Engineers and Architects

Üyesi / Member of

## **Yüksel İlkay TONGUC – Board Member**

Yüksel İ. TONGUC is a graduate of Middle East Technical University (METU) in Turkey, where he received his bachelor's degree in Civil Engineering in 1989 and his master's degree in Structural Engineering in 1992. He worked as an Academic Specialist and Project Coordinator at the Earthquake Engineering Research Center of METU from 1992 to 1996, and as a part-time teacher at the Faculty of Architecture of METU from 1996 to 1998.

He has been realising many international industrial investment planning, project management, engineering coordination, and commissioning tasks with his team. He was also involved in the implimantation of many pioneering methods for the evaluation and improvement of structural systems and facilities before and after earthquakes, and has given related conferences and seminars.

He is a member of many international associations of structural engineering and seismic engineering, and served as a board member of the Association of Turkish Engineers and Architects Cambers from 2008 to 2010.

Since 1996, Yüksel İ. TONGUC has been serving as the Chairman of the Board of Directors of PROMER Consulting and Engineering Inc., which he founded.
